*Editor’s Note: Ord. 2001-4, as written stated “three (3)” conditions, but only two (2) conditions were provided. Therefore an editor’s correction was made to accurately list the available conditions for exemptions provided for substantively.

Section 112. Calculation of Impact Fees

- A. The impact fee for transportation capital improvements shall be based upon the total costs of the road improvements included in the adopted Transportation Capital Improvements Plan within the Transportation Service Areas identified herein and attributable to and necessitated by new development within the said Transportation Service Area, divided by the number of anticipated P.M. peak-hour trips (exclusive of pass by trips) generated by all new development consistent with the adopted Land Use Assumptions Report and calculated in ac-

TRANSPORTATION

cordance with *Trip Generation*, published by the Institute of Transportation Engineers, 6th or subsequent editions, which is hereby adopted by the Township, to equal a per-trip cost for transportation improvements within the Transportation Services Areas.

- B. The specific impact fee for a specific new development or subdivision within the Transportation Service Areas for transportation capital improvements shall be determined by the estimated number of trips to be generated by the new development or subdivision based upon *Trip Generation*, 6th edition or subsequent editions, as published by the Institute of Transportation Engineers. If the Township Engineer determines that the proposed use is not adequately covered by *Trip Generation*, the estimated number of trips may be documented by other relevant studies and/or data, subject to review and approval by the Township Engineer.
- C. The Board of Supervisors may authorize or require the preparation of a specific transportation study in order to determine traffic generation or circulation for a new development to assist in the determination of the amount or the impact fee for such development or subdivision.

 - 1. The Township's Comprehensive Plan;
 - 2. Any standards for adequate public facilities incorporated in the Impact Fee Program;
 - 3. The projected build-out and timing of development area;
 - 4. The need for and cost of unprogrammed transportation improvements necessary to support projected development; and
 - 5. Such other factors as the Board of Supervisors may deem relevant.

- C. Fees collected from development in each of the Transportation Service Areas will be used exclusively to fund transportation improvement projects scheduled for that Transportation Service Area.

Ord. 2007-3, 9/6/2003, §6.

Section 114. Non-binding Impact Fee Estimate

Prior to making an application for a building permit, an applicant may request a non-binding impact fee estimate from the Township which shall be based upon the maximum development potential of the site pursuant to existing zoning regulations, unless the applicant specified a lesser use of development.

Ord. 2001-4, 8/23/2001, §15.

Section 116. Method of Payment

Payment of the impact fee shall be made by the applicant prior to the issuance of a Zoning or Building Permit by the Township to the applicant for development on the applicable site.

Ord. 2001-4, 8/23/2001, §16.

Section 117. Credit

- A. Any applicant who shall perform, at his expense and with the prior consent and agreement of the Board of Supervisors, off-site improvements contained in the Transportation Capital Improvements Plan as herein defined, shall be eligible for a credit from the impact fee otherwise due in the amount of the actual cost of such off-site improvements as approved by the Township Engineer. Such credit shall not exceed the amount of the impact fee.
- B. If the applicant makes such improvements, he must enter into an agreement with the Board of Supervisors prior to the issuance of any building permit. The agreement must establish the estimated costs of the improvement, the schedule for initiation and completion of the improvement, a requirement that the improvement be completed to Township and Pennsylvania Department of Transportation standards and design criteria and such other terms and conditions as deemed necessary by the Board of Supervisors. The Board of Supervisors must review the improvement plan, verify costs and time schedules, determine if the improvement is an eligible improvement, and determine the amount of the applicable credit for such improvement to be applied to the otherwise applicable impact fee prior to issuance of any building permit. In no event shall the Board of Supervisors provide a credit which is greater than the applicable impact fee. If however, the amount of the credit is calculated to be greater than the amount of the impact fee due, the applicant may use such excess credit toward the impact fees imposed on other building permits for development on the same site and in the same ownership. Any such applicant shall be required to supply financial security sufficient, in the judgment of the Township, to cover the cost of any such improvement installed by the applicant for which credit is sought.
- C. An applicant shall be entitled, as a credit against impact fees, an amount equal to the fair market value of the land dedicated by the applicant and accepted by the Township for future right-of-way, realignment or widening of existing roadways for construction of road improvements contained in the Transportation Traffic Improvements Program. There shall be no credit given for dedication of land for roads, easements, rights-of-way, recreation or other purposes required by the Ontelaunee Township Subdivision Ordinance.

Ord. 2001-4, 8/23/2001, §17.

Section 118. Refunds

Impact fees collected pursuant to this Ordinance shall be refunded, together with interest earned thereon, to the payor of the fees under the following circumstances:

- A. In the event the Township completes or terminates the Transportation Capital Improvements Plan and there remain undisbursed funds, the respective payors shall be entitled to a share of the fund balance in the same proportion as the payor's impact fee payment plus interest earned bears to the total impact fees collected plus interest.
- B. In the event any specific Transportation Capital Improvement Plan project is completed at a cost of the Township less than ninety-five percent (95%) of the budgeted cost of the project, the Township shall refund an amount equal to the excess budgeted cost over actual cost to the payors, pro rata, plus accumulated interest.
- C. In the event the Township fails to commence with construction within three (3) years of the scheduled construction date of the project as set forth in the Transportation Capital Improvements Plan, the Township shall refund the portion of the fee paid by any payor making written request therefore, which is attributable to said project, with accumulated interest, provided no refund shall be paid with respect to any project actually begun prior to the receipt of such refund request.
- D. In the event the development for which impact fees were paid has not commenced prior to the expiration for the building permit issued therefore, the impact fees paid with accumulated interest shall be refunded to the payor. Further, if a building permit after issuance is altered in such a way as to reduce the indicated impact fee, the difference between the amount indicated and the amount actually paid shall be refunded. The payor, at his option, may roll over the impact fees attributable to an expired building permit to cover fees incurred by a renewal of said expired permit.

With respect to refunds arising out of subparagraphs A or B hereof, any funds claimed within one (1) year after notice as required by law shall be transferred to the general account of the Township, and the payor's entitlement to said refund shall lapse. It is the responsibility of the payor to provide the Township with the current address of his place of business.

Ord. 2001-4, 8/23/2001, §18.

Section 119. Effect of Impact Fee on Zoning PRD and Subdivision Regulations

TRANSPORTATION

This Ordinance shall not affect, in any manner, the permissible use of property, density of development, previously adopted design and improvement standards and requirements or any other aspect of the development of land or provision of public improvements which remain subject to applicable zoning, subdivision and PRD Regulations of the Township, which shall be operative and remain in full force and effect without limitation with respect to all such development.

Ord. 2001-4, 8/23/2001, §19.

Section 120. Impact Fee as Additional and Supplemental Requirement

- A. The impact fee is additional and supplemental to, and not in substitution of, any other requirements imposed by the Township on the development of land or the issuance of building permits. Nothing herein contained shall be deemed to alter or affect the Township's existing Ordinances and Regulations regarding on-site improvements.
- B. Notwithstanding Section 119 hereof, impact fees may be imposed on those projects involving developments, subdivisions and PRD's for which an application has been filed on or after the first publication of notice of the Township's intent to adopt this Ordinance which occurred on March 10, 2000; provided, however, that such retroactivity does not exceed eighteen (18) months after the adoption of the Resolution that created the Advisory Committee in connection herewith, which occurred on February 24, 2000.
- C. In retroactive applications, the impact fee shall not exceed Nine Hundred Dollars (\$900.00) per P.M. peak hour trip.

Ord. 2001-4, 8/23/2001, §20.
